

## Week 5 - D'Aulaire's Myths

There are many questions for this week. I do not expect you to write answers to all of them. However, make sure you write in the answers for the 1-3-word answers. For the longer answers, make sure you write a few notes about each so that you can remember for class. Greek myths are meant to be talked about. They are originally part of oral tradition, which means they were learned by listening to others tell about them. You would benefit from going through these questions with your mom or a sibling or your dad and talking about each of the longer questions. In that way, you become part of the oral tradition that these stories were built on.

In Olden Times:

1. What did the Greek gods look like compared to the gods of other people?
2. What was the job of gods and heroes?
3. Where did the Greek gods live?
4. In Greek mythology and religion, who is the beginning of all life?
5. Begin to create a family tree of the Greek gods. Remember to include what each god is seen as god of. For example: Gaea - earth

Here is part of the family tree to help you get started:

Use straight lines to connect parents and dotted lines to show which gods are married to one another.
